# Fast-Track Your Antibody Drug Conjugate with Simtra BioPharma Solutions

As Antibody Drug Conjugates (ADCs) become the future standard of cancer therapy, Simtra BioPharma Solutions is a trusted partner for Pharmaceutical and Biotech companies developing complex therapies.

Simtra BioPharma Solutions has a long-standing history when it comes to manufacturing ADCs

Experience transferring

**ADC Programs** including **six** commercial ADCs

Clinical and commercial manufacturing services with expertise in

# Oncology and ADCs

operating under SafeBridge Certification and equipped to handle OEB 5 chemicals.

## Currently undergoing a **\$100M expansion**

at Simtra's Halle/Westfallen Germany, facility to offer additional commercial capacity for ADCs in early 2026.

## An additional **\$14M investment**

to expand conjugation and purification capabilities for ADCs in early 2026.

Building capabilities to support conjugation, purification and fill/finish, from early development and clinical through commercial production — all within Simtra's Halle, Westfalen Germany facility.

DEVELOPMENT & PRE-COMMERCIAL SERVICES

State of the art equipment to accelerate the development process and speed up entry into the clinic.

- Analytical method development
- Formulation development
- Lyophilization feasibility & excipient study
- Lyophilization development
- Development of design space for primary drying and design space challenge
- Manufacturing feasibility

#### **CONJUGATION & PURIFICATION**

State of the art equipment to accelerate the development process and speed up entry into the clinic.

COMING SOON IN 2026

THE LAND IS NOT

IIII

- Conjugation suite equipped with single use disposable systems, customized for each product and process
- Tangential flow filtration (TFF)/Diafiltration (DF)
- GMP manufacturing 500g 5,000g
- Dedicated cold storage areas for DS, mAb, toxin, and finished product

### FILL/FINISH

#### Scalable Capacity to meet your evolving needs.

- 4 manufacturing suites, 2 clinical scale, 2 commercial scale
  + 1 additional commercial scale line coming in Q1 2026
- Equipped to handle liquid and lyophilized vials from 2 mL to 100 mL
- OEB 5, SafeBridge Certification
- Peristaltic pump to minimize shear stress
- Lyophilizers: 1 x 14 m<sup>2</sup> (151 sq ft), 1 x 17 m<sup>2</sup> (183 sq ft), 4 x 30 m<sup>2</sup> (323 sq ft), 4 x 40 m<sup>2</sup> (431 sq ft)
  - Additional lyophilizers (2 x 40 m<sup>2</sup> (431 sq ft)) coming in Q1 2026 with automatic/semi-automatic loading and unloading systems designed to minimize product exposure to room temperature
- Temperature and light control during filling on designated manufacturing lines
- Cold storage for drug substance & finished product -70°C – +25°C
- 100% automatic weighing IPC on designated manufacturing lines
- $\bullet\,$  Visual inspection manual, semi-automatic and automatic
- Secondary packaging available for commercial supply
